Penguin Solutions™, an SGH brand, accelerates customers’ digital transformation with the power of emerging technologies in HPC, AI, and IoT with solutions and services that span the continuum of edge, core, and cloud.

We design highly-advanced innovative systems, clusters, software infrastructure and integrated solutions that enable the world’s most inventive enterprises and government institutions to build the autonomous future, drive discovery, and amplify human potential.

**COMPANY OVERVIEW**

Penguin Solutions™ accelerates customers’ digital transformation with the power of emerging technologies in HPC, AI, and IoT with solutions and services that span the continuum of edge, core, and cloud.

We design highly-advanced innovative systems, clusters, software infrastructure and integrated solutions that enable the world’s most inventive enterprises and government institutions to build the autonomous future, drive discovery, and amplify human potential.

**MARKETS SERVED**

- Digital surveillance and security
- Education and research
- Federal government and DoD
- Financial services
- Hyperscalers and internet innovators
- Life sciences and healthcare
- Oil and gas exploration

**OUR SOLUTIONS**

**Edge:**
Our simple, protected, and autonomous Edge platforms and software enable insight, intelligence, and analytical capabilities closer to where the data is generated.

**Core:**
Our optimized semi-custom compute platforms designed for leading edge HPC and AI technologies and enhanced with innovative software solutions, enable operating complex and demanding workloads at the core.

**Cloud:**
With our on-premises and cloud-based solutions, we deliver secure and scalable supercomputing that provides simplified HPC- and AI-cluster deployment, flexible cost management options, and streamlined user experience.

**KEY FACTS**

- SGH Year Founded: 1999
- SGH NASDAQ
- SGH Employee Count: ~3,700
- SGH FY 2022 Revenue: $441M

**PENGUIN SOLUTIONS LOCATIONS**

- Headquarters in Fremont, California
- Manufacturing in U.S. with global sales and support available worldwide
